Currently we use HotJar on the following sites:

- www.aerotek.com
- www.allegisgroup.com
- www.astoncarter.com
- www.easi.com
- www.gettinghired.com

- www.teksystems.com

What is HotJar?

Hotjar is a technology service that records user sessions anonymously and captures information—such as what links users are clicking on, or how much time users spend on a page—to help us understand how our users interact with our website. HotJar compiles this information across multiple user sessions and displays it as a visual “heat map” that shows where user interactions occur on a given page. This enables us to see “hot spots” of where users are trying to navigate to and evaluate if our website is serving the needs of our visitors.

How does HotJar work?

Hotjar uses cookies and other technologies to track and collect data on our website users’ interactions as well as device information such as device’s IP address (captured and stored only in anonymized form), device screen size, device type (unique device identifiers), browser information, geographic location (country only, and preferred language. HotJar stores this information in an anonymized user profile.

Does HotJar record, capture or store any sensitive information or personal data?

No. Neither Hotjar nor our websites will ever use this information to identify individual users or to match it with further data on an individual user. We will also never place HotJar on pages that contain forms or other places where users can enter personal data. For further details, please see Hotjar’s privacy policy by clicking on [this link](#).

What pages of this website use HotJar?

We will only use HotJar on a small subset of its U.S.-based website where content is most relevant to finding jobs and providing jobseeker services. We uses analytics to identify the most-trafficked pages of its site related to finding jobs and uses HotJar on a representative sample of those pages to further improve the user experience.

How can I opt out of being tracked by HotJar?

You can opt-out to the creation of a user profile, Hotjar’s storing of data about your usage of our site and Hotjar’s use of tracking cookies on other websites by following this [opt-out link](#).
